PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with **1.4 years of professional experience** building and shipping **2 production-grade enterprise applications** at Solartis Technology Services. Specialized in **Java, Spring Boot, and React.js** with proven expertise in **microservices architecture, event-driven systems using Apache Kafka, and RESTful API development**. Delivered measurable impact by reducing report generation time by **40 percent** and cutting manual migration effort by **60 percent**. Adept at securing applications with **Spring Security and JWT**, working with **ClickHouse OLAP** analytics, and shipping responsive frontends using **Tailwind CSS**.

EXPERIENCE

•Solartis Technology Services Pvt. Ltd.

Jan 2025 – Present

Full Stack Developer

Madurai, Tamil Nadu

- Owned end-to-end delivery of **2 enterprise applications** across the full **Software Development Lifecycle (SDLC)** – from requirements gathering and system design through testing and production deployment.
- Engineered and documented **20+ RESTful APIs** following REST best practices; reduced API defect rate by **30 percent** through systematic testing using **Postman** and peer code reviews via **Git**.
- Collaborated with a cross-functional team of **5+ engineers** (backend, frontend, QA), consistently delivering features on schedule across iterative development cycles.
- Improved codebase maintainability by enforcing **Git** branching strategies, pull request reviews, and coding standards across the development team.

PROJECTS

•Explore – Data Migration Platform

July 2025 – Present

Full Stack Developer | Java, Spring Boot, Apache Kafka, MySQL, React.js, Tailwind CSS

Solartis Technology Services

- Architected a high-performance **data migration platform** using **Spring Boot** and **Apache Kafka** for event-driven, asynchronous data streaming, processing over **1 million records** and cutting manual migration effort by **60 percent**.
- Implemented **Spring JDBC** with **MySQL** for optimized bulk data persistence and transaction management; enforced **Role-Based Access Control (RBAC)** with full audit trail using **Spring Security**.
- Delivered a responsive **React.js** and **Tailwind CSS** frontend enabling real-time migration monitoring, reducing operator errors by **35 percent**.

•Reports – Business Intelligence and Reporting Platform

Feb 2026 – Present

Full Stack Developer | Spring Boot, Spring Security, JWT, JasperReports, ClickHouse, React.js

Solartis Technology Services

- Built a **business intelligence reporting system** using **JasperReports** for automated PDF and tabular report generation, eliminating **100 percent** of manual reporting effort for 3 departments.
- Integrated **ClickHouse** (OLAP columnar database) for analytical queries on large datasets, reducing average report generation time by **40 percent**.
- Secured the platform with **JWT-based authentication** via **Spring Security** and built interactive dashboards using **React.js** and **Spring Boot** RESTful APIs for real-time business insights.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, HTML5, CSS3

Backend: Spring Boot, Spring Security, Spring JDBC, RESTful API Design, Microservices, Apache Kafka, Docker

Frontend: React.js, Tailwind CSS, Bootstrap, HTML5, CSS3

Databases: MySQL, ClickHouse (OLAP / Columnar)

Reporting and Analytics: JasperReports, ClickHouse Analytical Queries

Security: Spring Security, JWT Authentication, Role-Based Access Control (RBAC)

Tools: Git, GitHub, Postman, Eclipse, VS Code

Concepts: Microservices Architecture, Event-Driven Architecture, OOP, SDLC, Data Structures and Algorithms, DBMS

Soft Skills: Problem Solving, Self-Learning, Team Collaboration, Adaptability

EDUCATION

•Bachelor of Engineering in Electronics and Communication Engineering

2020 – 2024

PSNA College of Engineering and Technology, Dindigul

CGPA: 7.9
